Correctional Services Director Steve King provided the Board with a department update. The most significant department change was a legislative change to the funding formula for county correction (probation). Starting in 2024, the funding will increase by 20% or \$180,000. The cannabis legalization statute is also affecting the department relative to making probation recommendations to the courts to impose "no use" conditions. In terms of probation, alcohol is also legal but there may be reasons to impose "no use" conditions. The department is considering training its probation officers on the use of Narcan. Lastly, Mr. King indicated that the district has been receiving pressure to add a drug court under the treatment court initiative. Mr. King indicated that he is resistant due to the effective and successful programs currently offered through probation that have proven to be as effective or more than drug court.

Motion made by Commissioner Mueller, seconded by Commissioner Glynn, to approve the following Commissioner warrants for payment:
